DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. **Claims 1-8, 11-20** are drawn to structure of a stepping motor, classified in class 310 subclass 49r.
- II. **Claim 10** is drawn to method of driving the stepping motor, classified in class 318, subclass 112.

The inventions are distinct, each from the other because of the following reasons:

Inventions of group (I) and (II) are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process of driving the stepping motor as claimed can be practiced with another materially different stepping motor which might not have the same claimed structures but having similar operational/functional characteristics.

Because these inventions are distinct for the reasons given above and have acquired a separated status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Oliff, reg 27075, on 2/7/03, for an oral restriction election but Mr. Oliff could not be reached. Therefore, no election was made.

Art Unit: 2834

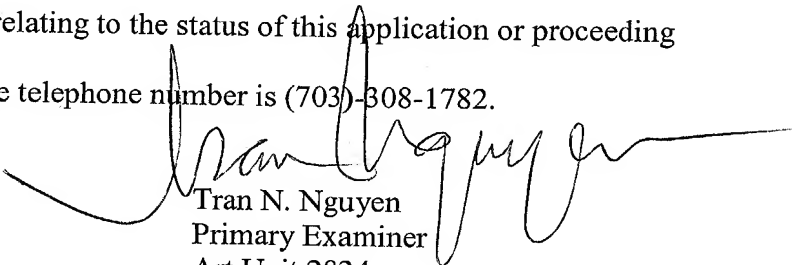

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tran N. Nguyen whose telephone number is (703) 308-1639. The examiner can normally be reached on M-F 7:00AM-4:00PM.
